

## ■ ‘High’ and ‘low’ are about measurement

© Commonwealth of Australia 2006

## ■ What we do and what it means

Camryn: I can jump so high!

Mum: Whee ... let's try and touch the sky.

Things can be higher or lower, thicker or thinner, smaller or larger. All of these are comparisons.

Later, children will learn to use centimetres (cm), kilograms (kg), degrees, etc to make comparisons.

An Australian Government initiative, funded by the Department of Education, Science and Training
